PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building, maintaining, and deploying web, desktop, and mobile applications. Experienced in frontend and backend development using React, Next.js, Node.js, C#, ASP.NET Core Web API, and PostgreSQL/SQL Server. Built and maintained business systems including accounting, inventory, cashiering, payroll, attendance, and ordering applications. Experienced in working with production systems, implementing client requirements, troubleshooting issues, improving application reliability, and using AI-assisted development workflows to accelerate implementation, debugging, research, and problem solving.

TECHNICAL SKILLS

Frontend Development

React.js, Next.js, React Native, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend Development

Node.js, C#, ASP.NET Core Web API, RESTful APIs, PHP

Database & Cloud

PostgreSQL, Supabase, Microsoft SQL Server, Microsoft Azure

AI-Assisted Development

OpenAI Codex, Claude Code, Devin AI, Replit, Lovable, ChatGPT, Gemini, Cursor, and open-source agentic development harnesses

Development & Collaboration

Git, GitHub, API Integration, Responsive Web Development, SEO, AI-Assisted Development Workflows

IT & Systems Support

Microsoft 365 Administration, Basic Networking, Hardware & Software Troubleshooting, Remote Support, Windows OS

PROFESSIONAL EXPERIENCE

Software Developer - CByte Programming

August 2024 – March 2026

- Maintain and enhance Windows Forms-based accounting and inventory management systems used for business operations.
- Develop and improve application functionality using C# and Microsoft SQL Server.
- Troubleshoot and resolve production issues involving application behavior, data accuracy, and system reliability.
- Implement feature improvements and bug fixes based on business requirements.
- Collaborate with team members to test, refine, and deliver stable application updates.

Nimble Deck

Project-Based

- Developed and improved features for a SaaS platform focused on creating and personalizing sales presentations.
- Worked on presentation editor functionality, slide layouts, rendering behavior, and PowerPoint/PDF export workflows.
- Investigated and resolved UI, rendering, alignment, and export issues to improve consistency between the editor and final presentation output.
- Implemented changes within an existing production codebase while following established architecture and product requirements.
- Supported Microsoft integration and Microsoft AppSource preparation through testing, troubleshooting, and production-related improvements.
- Used AI-assisted development tools to accelerate implementation, debugging, research, and problem solving.

Project-Based

- Developed frontend interfaces for a web-based cashiering system using modern web development frameworks.
- Built backend functionality for transaction processing and system integration.
- Developed an Android ordering application supporting dine-in and take-out workflows.
- Worked on business applications involving accounting, inventory, cashiering, and reporting requirements.
- Participated in testing, debugging, deployment, and iterative improvements based on project requirements.

IT Support Intern - Innov8 Solution

February 2024 – June 2024

- Provided technical support for hardware, software, networking, and general IT issues.
- Administered Microsoft 365 user accounts, email configuration, and access permissions.
- Installed and maintained operating systems and business applications.
- Provided remote technical support using AnyDesk, TeamViewer, and Remote Desktop.
- Assisted with employee onboarding, offboarding, and account setup.

EDUCATION

Bachelor of Science in Information Technology

Carlos Hilado Memorial State University 2024

Senior High School - Science, Technology, Engineering, and Mathematics

Bacolod City National High School 2018

Junior High School

Bacolod City National High School 2016

Primary Education

Borbon Central Elementary School 2012
