

EDDY R. CASAS

Full Stack Developer

Bacolod City, Negros Occidental | 0918-552-5352 | yddecasas21@gmail.com

PROFESSIONAL SUMMARY

Software Developer with hands-on experience in frontend and backend development, building and maintaining web applications, APIs, and Windows Forms systems. Strong foundation in modern JavaScript frameworks, ASP.NET Core Web API, and SQL-based databases. Experienced in developing SEO-friendly web applications by applying semantic HTML, optimized page structure, performance-conscious design, and best practices that support search engine visibility. Proven ability to maintain production systems, build user-focused interfaces, and deliver reliable software solutions that align with business and technical requirements.

TECHNICAL SKILLS

Frontend Development

React.js, Next.js, React Native, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend Development

C#, ASP.NET Core Web API, RESTful APIs, PHP

Database & Cloud

SQL Server, Supabase, Postgres, Microsoft Azure Cloud

Tools & Platforms

Git, GitHub, Windows OS, Microsoft 365 Administration

IT & Systems Support

Basic Networking, Incident & Ticket Handling, Software Installation, Remote Support (AnyDesk, TeamViewer, RDP)

PROFESSIONAL EXPERIENCE

Software Developer – CByte Programming (August 2024 – Present)

- Maintained and enhanced Windows Forms-based accounting and inventory management systems.
- Implemented backend logic improvements using C# and SQL Server.
- Fixed production issues and improved system reliability and data accuracy. - Collaborated with team members to deliver stable application updates.

Junior Developer / Automation Support – Project-Based

- Developed frontend interfaces for a web-based cashiering system using modern UI frameworks.
- Built backend services for transaction processing and system integration.

- Created an Android-based ordering application supporting dine-in and take-out workflows.

IT Support Intern – Innov8 Solution (February 2024 – June 2024)

- Provided technical support for hardware, software, and network-related issues.
- Administered Microsoft 365 user accounts, email setup, and access permissions.
- Installed and maintained operating systems and business applications.
- Delivered remote support and assisted with user onboarding and offboarding.
